

### **Figure legends**

Figure S1: Effects of low-dose alteplase as compared with standard-dose alteplase on the functional outcome (mrs 3-6), according to imaging characteristics

Data are OR (95% CI), p values.

sICH denotes symptomatic intracerebral haemorrhage

Figure S2: Effects of low-dose alteplase as compared with standard-dose alteplase on the safety outcome (sICH), according to imaging characteristics

Data are OR (95% CI), p values.

sICH denotes symptomatic intracerebral haemorrhage

**Figure 1 Flowchart of baseline images included for analysis**
