In the manuscript stated above, the unit for O<sub>3</sub> mixing ratios has been incorrectly stated in Fig. 8 as “pptv”. The correct unit is “ppbv” as stated several times in the text and is shown in the corrected figure here.

**Fig. 8.** Measured diurnal profiles of NO, NO<sub>2</sub>, O<sub>3</sub>,  $J_{\text{NO}_2}$ , OH, HO<sub>2</sub> and RO<sub>x</sub> (note that NO<sub>x</sub> and O<sub>3</sub> data have been filtered for stack emissions).
